ifi-nabu - IFI Cloud Service (Data Exchange)

This self-hosted IFI service (based on NextCloud) provides an area for file and data exchange betweeen internal and external partners (outside UIBK) as well a possibility for shared calendars.
It is also possible to synchronise your smartphone data with this service instaed of using Google services.
A valid IFI LDAP user is required to use this service (ask your sysadmin if you do not have one).
URL: https://ifi-nabu.uibk.ac.at/

fileshare (Sync & Share)

This ZID service (based on Seafile) is a rather new sync and share solution. Every user with a valid personal c703nnnn account gets 100 GB personal storage.
URL: https://fileshare.uibk.ac.at/

Further information is available at: https://www.uibk.ac.at/zid/anleitungen/fileshare/index_en.html

drop-INN (Data Exchange)

This ZID service provides a hidden area within the UIBK anonymous FTP server (ftp://ftp.uibk.ac.at) for data exchange betweeen internal and external partners.

The service management can be done within:
http://drop-inn.uibk.ac.at (using your c703nnnn account))

Further information is available at:
http://unix-docu.uibk.ac.at/zid/systeme/storage/lsa/04-drop-inn-anleitung-en.html .
If you have troubles using that service you can contact: drop-inn-admin@uibk.ac.at

filesender (1-Click-Share)

This ACOnet based service (all Austrian universities are part of the ACONet) provides a 1-click-sharing service for authenticated users. File size limit is 250 GB. After the upload you receive a link which you can share with anyone (no registration required to download).
URL: https://fileshare.uibk.ac.at/

Choose “Universität Innsbruck” and authenticate with your c703nnnn account.

BSCW

This system is meant to share data. Please add detail if you know more.
