Eduroam and UIBK WiFi Access

Wireless network settings

Following setting should do the trick:

- Network name/(ESSID) is “UIBK” or “eduroam”.
- The wireless network authentication type is “WPA2 Enterprise”.
- Data encryption method to use is AES.

Use following user authentication settings:

- EAP Authentication Type: PEAP.
- Authentication Method: `MS-CHAPv2`.
- Username and password will be the ones given from the University (c-number):
- User: `c703xxxx`
- # Note: for eduroam the user is `c703xxxx@uibk.ac.at`

Further information: https://www.uibk.ac.at/zid/anleitungen/wlan/eduroam
Extended WiFi configuration instructions: https://www.uibk.ac.at/zid/anleitungen/wlan/

To use eduroam securely (not sending your password to everything called “eduroam” as explained here) you may want to use the certificates.

LAN Network Access (over RJ45 patch cable)

Please contact your system administrator.
