Further Information on Mail

see ZID config page (in german): Installation und Konfiguration von Mozilla Thunderbird

Exchange-Calendar in Thunderbird

Official support is not given, neither by Mozilla nor Microsoft.

Nevertheless, there is a PlugIn called TbSync which is able to sync calendar/contacts over the Exchange ActiveSync (EAS) protocol:

Thunderbird PlugIn TbSync

History:

There is also an **outdated**, (almost) stable project which is offering calendar support for Thunderbird over a xpi-PlugIn:

Exchange EWS Provider v3.9.0

Stable for *reading* Exchange Calendar entries. It is also possible to add/update entries, but it seems like it takes some time that all data is synchronized properly. doku
