

# Thunderbird Setup

## Mail

Add a new account

Welcome to Thunderbird ×

**Would you like a new email address?**

In partnership with several providers, Thunderbird can offer you a new email account. Just fill in your first and last name, or any other words you'd like, in the fields above to get started.

 gandi.net

The search terms used are sent to Mozilla ([Privacy Policy](#)) and to 3rd party email providers gandi.net ([Privacy Policy](#), [Terms of Service](#)) to find available email addresses.

Click on *Skip this and use my existing email*

**Mail Account Setup** [X]

Your name:  Your name, as shown to others

Email address:

Password:

Remember password

Fill in these spaces:

Description	What to fill in	Notes
Your Name	First and last name, e.g. John Doe	use ue instead of ü etc.
Email address	Your official University Email address, eg. John.Doe@uibk.ac.at	can be taken from your "Benutzerbewilligung"
Password	can be taken from your "Benutzerbewilligung"	

Press *continue*

Thunderbird is trying to find the right settings but it will not find them, so immediately click *manual config*

**Mail Account Setup** ✕

Your name:  Your name, as shown to others

Email address:

Password:

Remember password

	<small>Server hostname</small>	<small>Port</small>	<small>SSL</small>	<small>Authentication</small>
Incoming:	<input type="text" value="138.232.65.244"/>	<input type="text" value="1143"/>	<input type="text" value="SSL/TLS"/>	<input type="text" value="Normal password"/>
Outgoing:	<input type="text" value="138.232.65.244"/>	<input type="text" value="1025"/>	<input type="text" value="SSL/TLS"/>	<input type="text" value="Normal password"/>

Username: Incoming:       Outgoing:

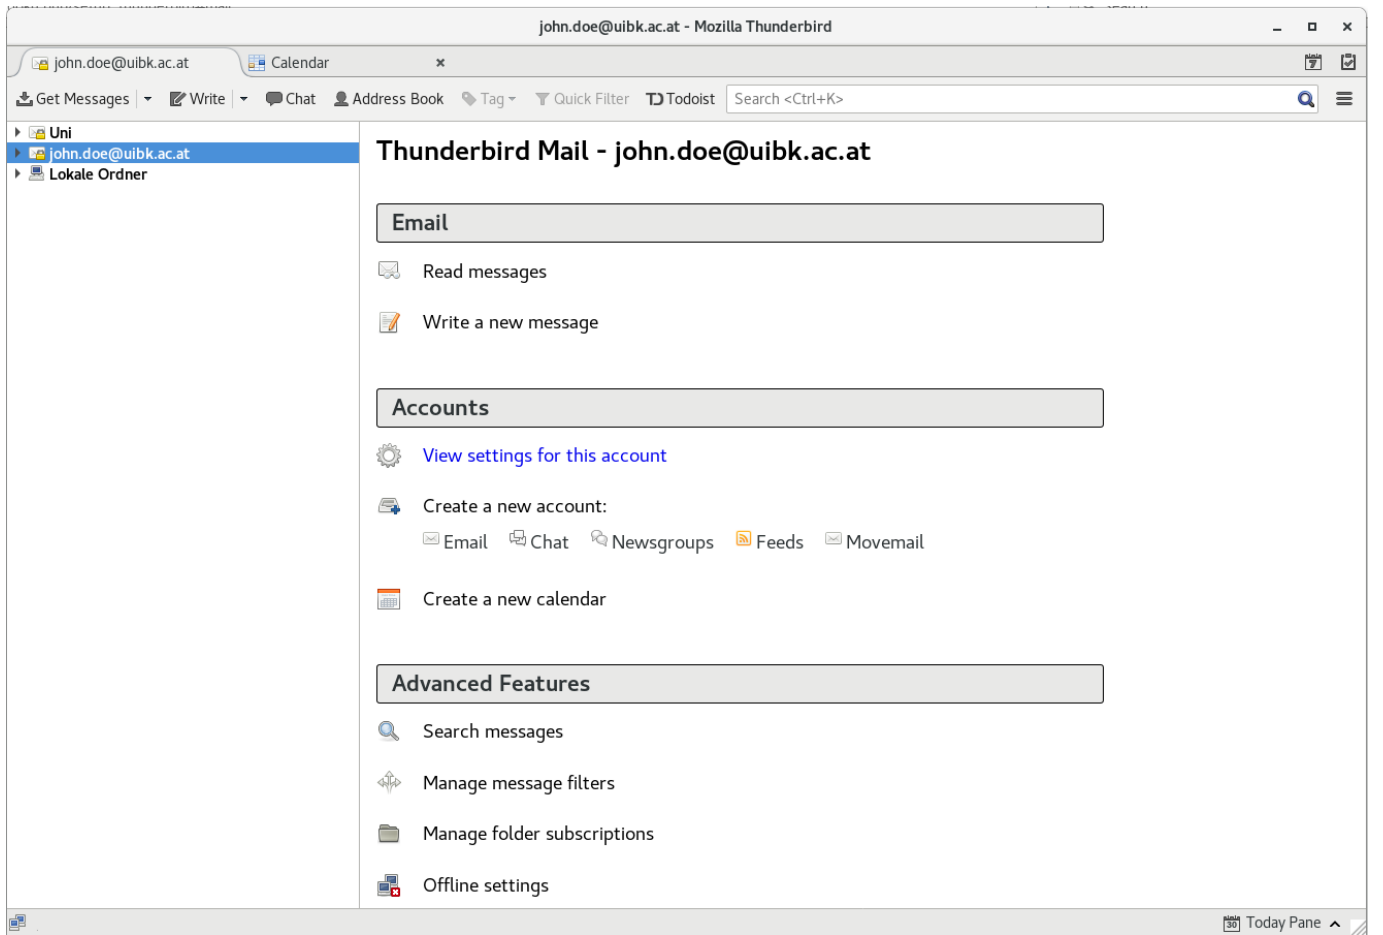

Once again fill these spaces:

Description	What to fill in	Notes
Username	Your c number	can be taken from your "Benutzerbewilligung"
Server hostname	138.232.65.244	incoming and outgoing are identical
Port (IMAP)	1143	
Port (SMTP)	1025	
SSL	SSL/TLS	
Authentication	Normal password	

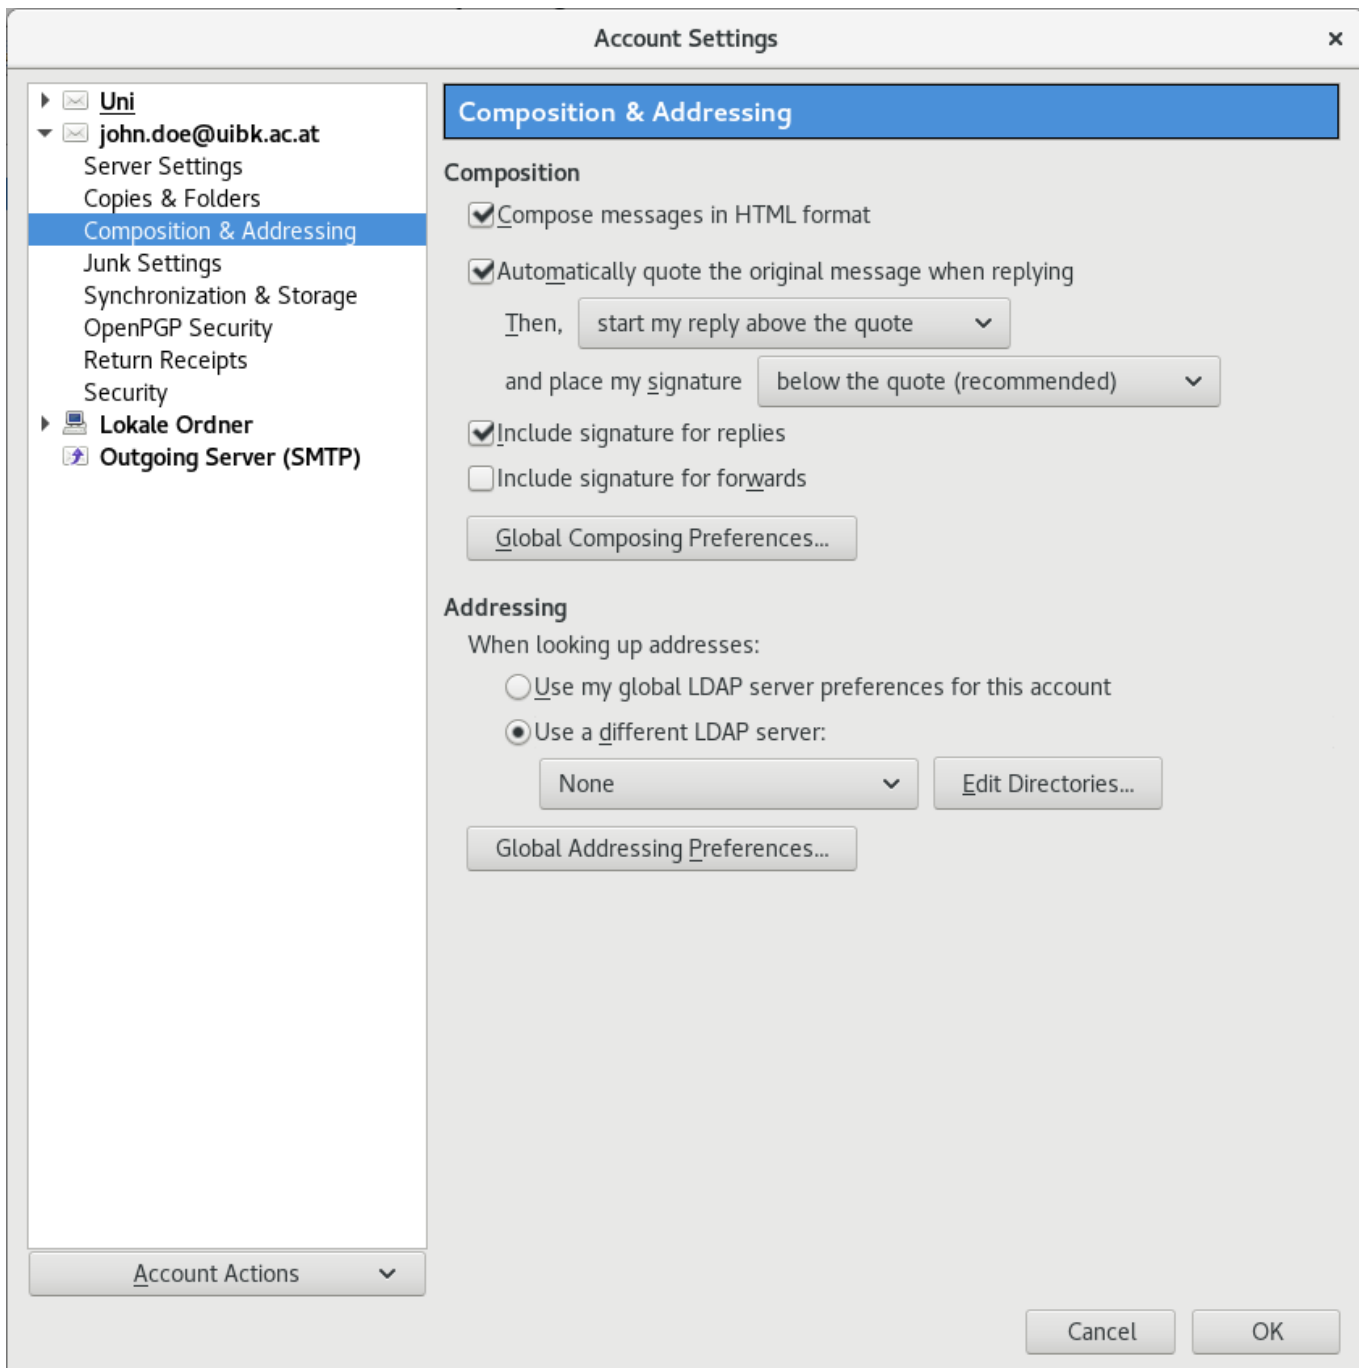

Double check your entered infos, and click *Done*

Your Mail Address is now configured.

## LDAP

Click on *View settings for this account*

Under *Composition & Addressing* click *Edit Directories...*

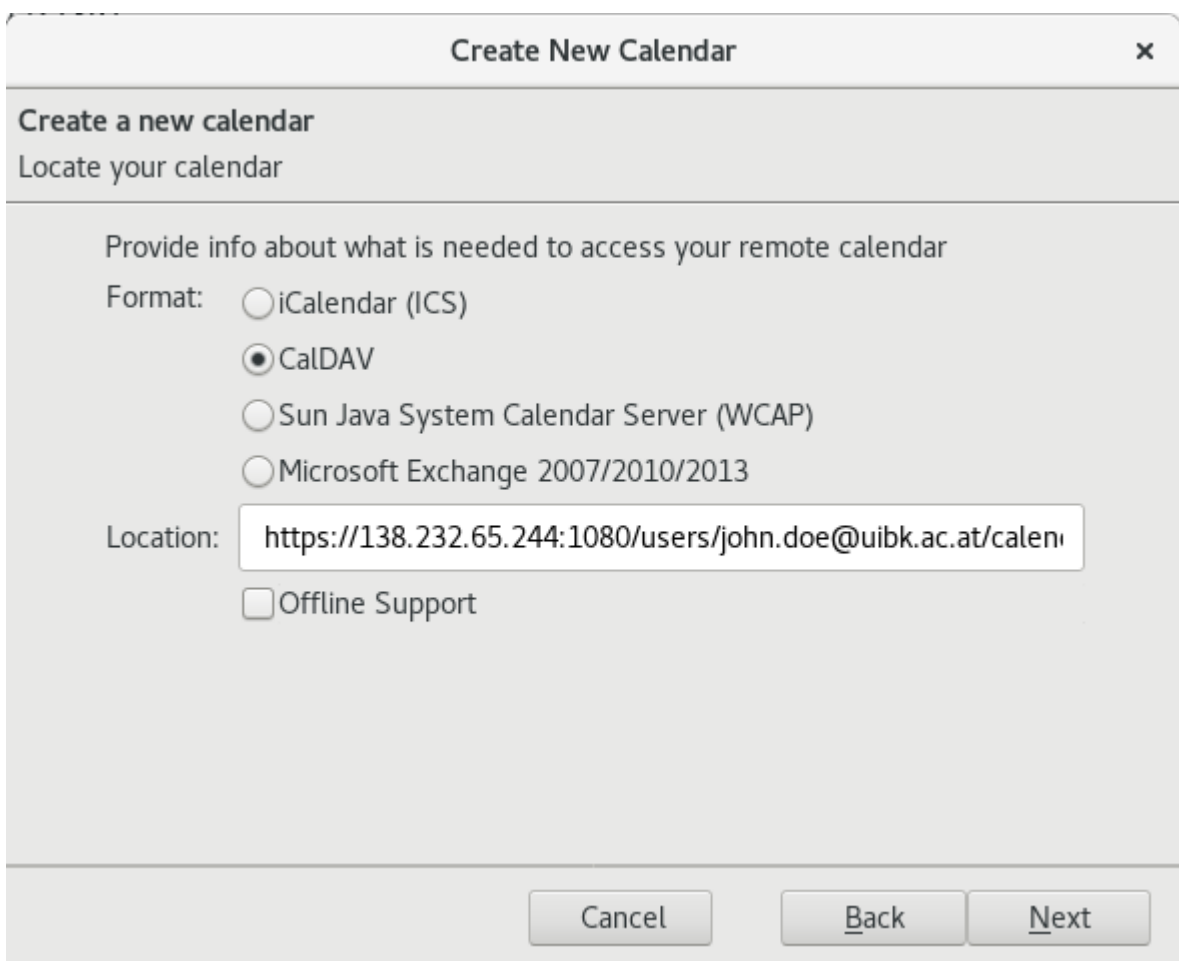

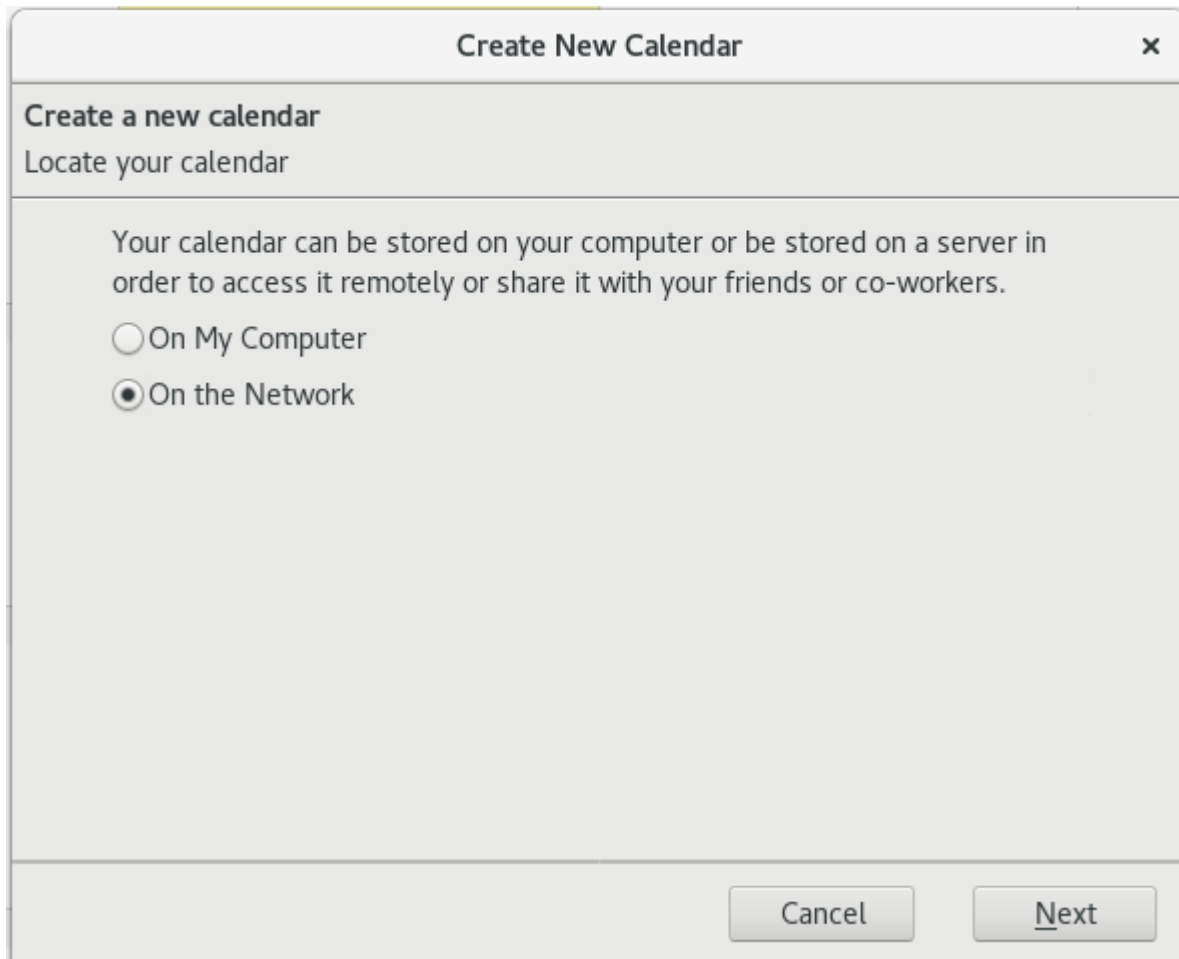

The screenshot shows a dialog box titled "Uni Innsbruck Properties" with a close button (X) in the top right corner. It has three tabs: "General", "Offline", and "Advanced", with "General" being the active tab. The "General" tab contains several input fields: "Name" with the text "Uni Innsbruck", "Hostname" with "ldap.uibk.ac.at", "Base DN" with "o=Universitaet Innsbruck,c=AT" and a "Find" button to its right, "Port number" with "389", and "Bind DN" which is empty. Below these fields is a checkbox labeled "Use secure connection (SSL)" which is unchecked. At the bottom of the dialog are "Cancel" and "OK" buttons.

Fill the spaces:

Description	What to fill in	Notes
Name	Uni Innsbruck	
Hostname	ldap.uibk.ac.at	
Base DN	o=Universitaet Innsbruck,c=AT	
Port Number	389	

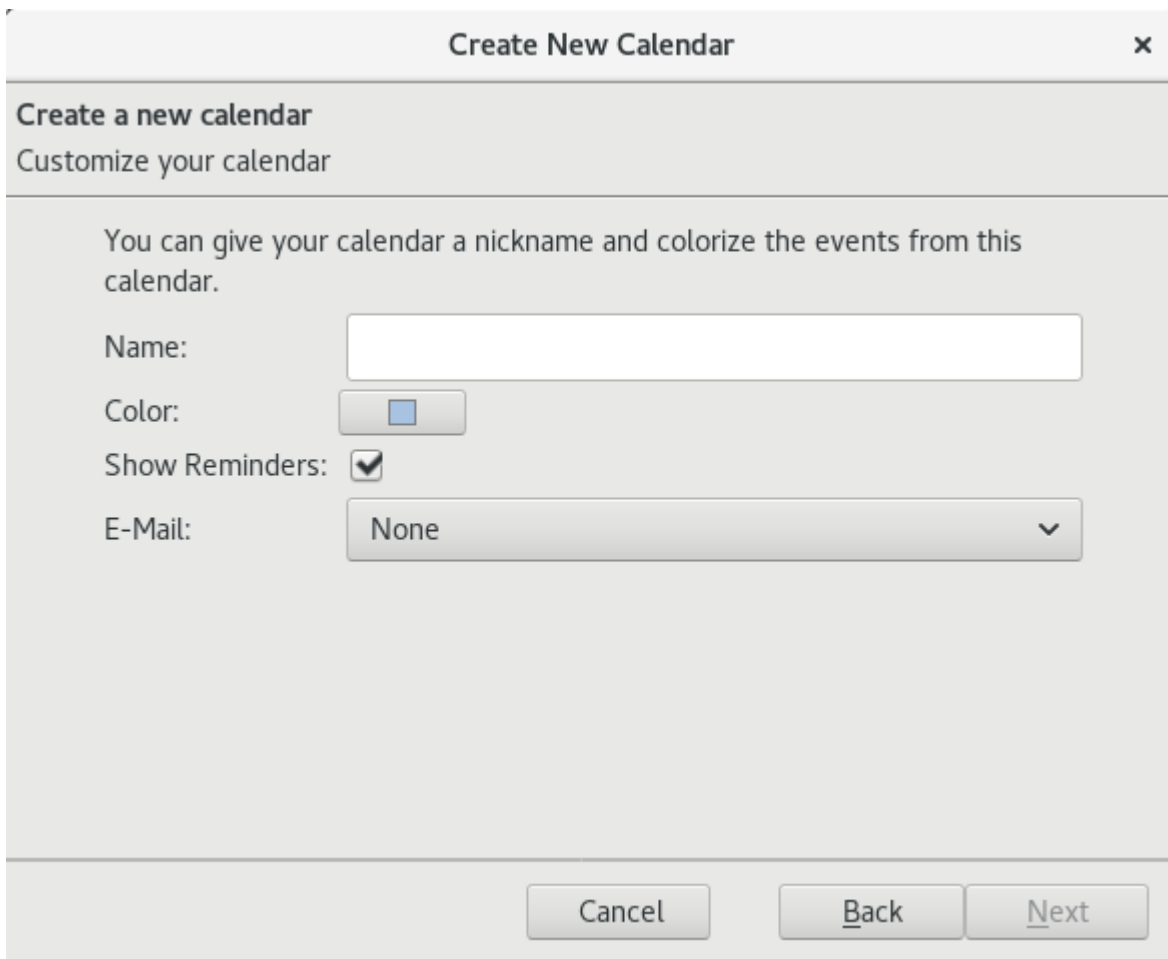

## Calendar

Switch to the Calendar tab, right-click below the calendars on the left and select *New Calendar...*

Fill the spaces:

Description	What to fill in	Notes
Format	CalDAV	
Location	<a href="https://138.232.65.244:1080/users/first.last@uibk.ac.at/calendar/NameOfYourCalendar/">https://138.232.65.244:1080/users/first.last@uibk.ac.at/calendar/NameOfYourCalendar/</a>	Make sure the calendar you're trying to add already exists, if not create one via the exchange webclient

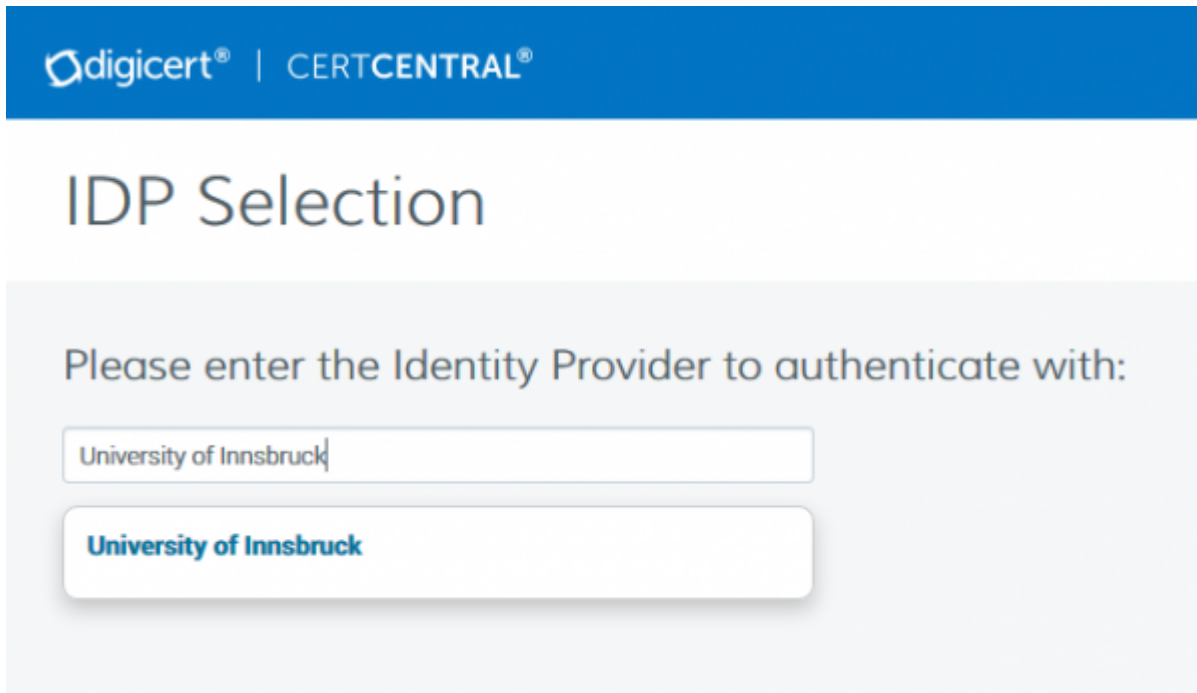

Description	What to fill in	Notes
Name	Whatever you want to name your calendar	
Email	Which Email you want to link to this calendar	

Now click *Next* and finish the calendar setup.

## S/MIME

## Creating your Certificate

Visit the [DigiCert SSO Portal](#) and choose the University of Innsbruck

Next, login with your c-number

After that select **Premium** as Product, a Validity Period (1-3 Years) and click "Request Certificate"

digicert® | CERTCENTRAL®

# Request a Certificate

Choose a product

Product: **Schritt 1** → Premium

Validity Period: 1 Year

CSR: (optional)

Common Name: Vorname Nachname

Email: vorn.nachn @uibk.ac.at

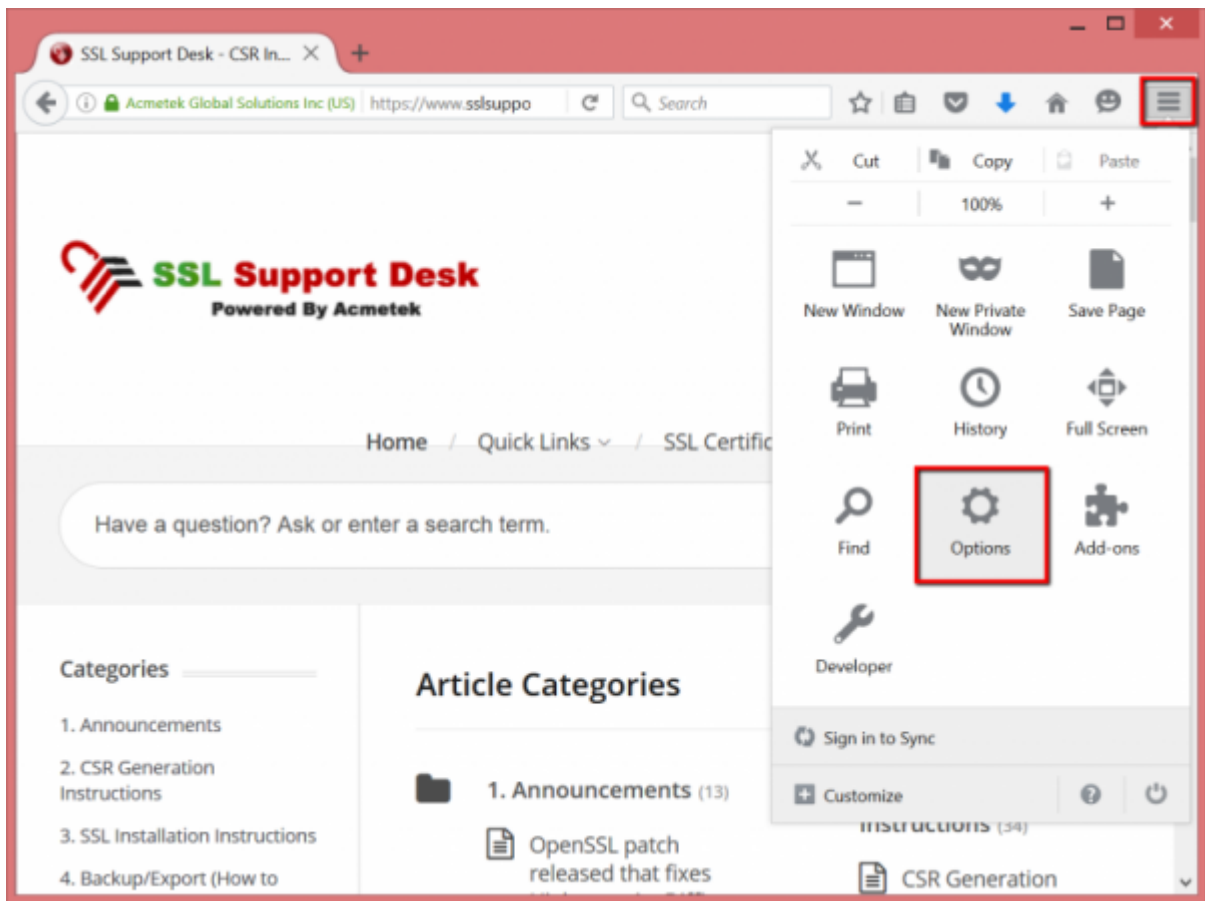

Organization: Universität Innsbruck

**Schritt 2** → Request Certificate

## Exporting the Certificate (Firefox)

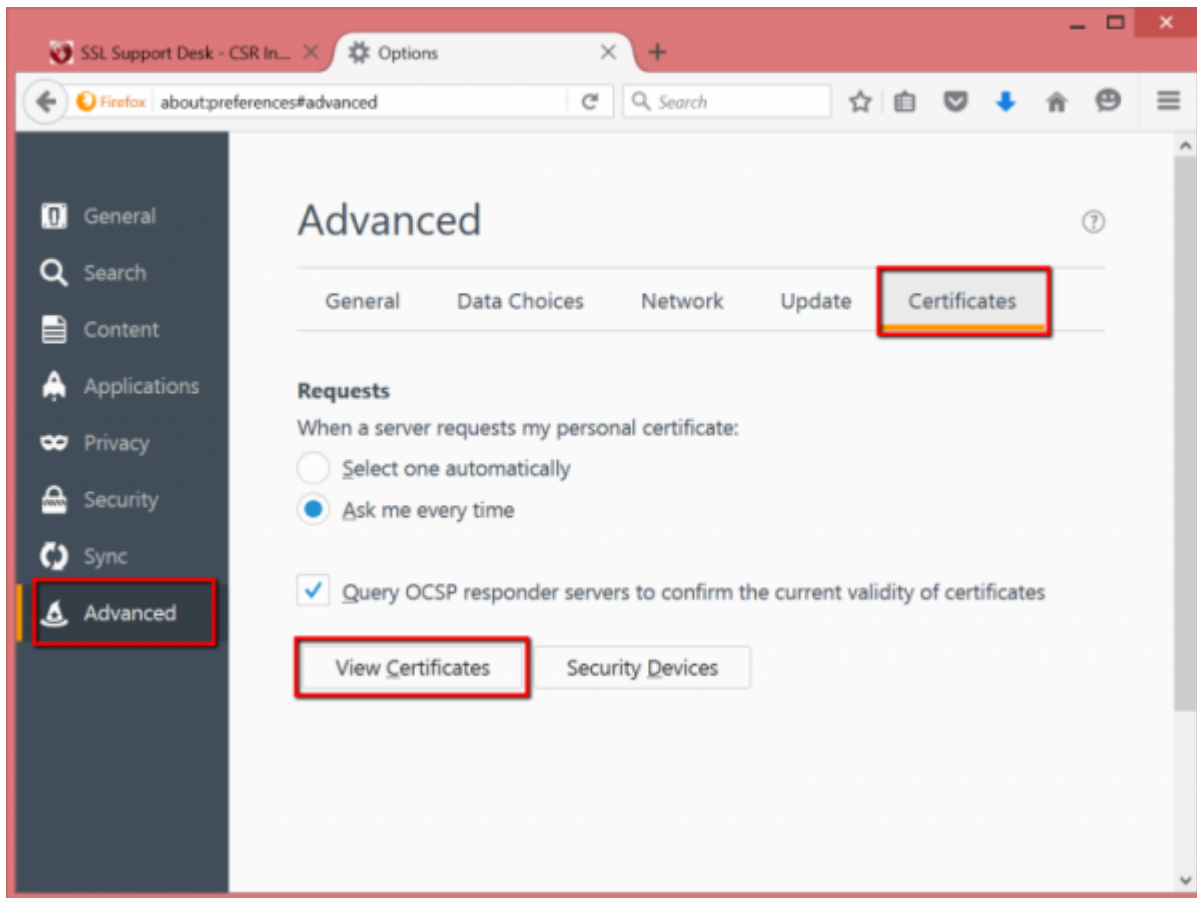

In the upper right of your Firefox browser click 

Click **Options**

On the left panel click **Advanced**

Under Advanced click **Certificates > View Certificates**

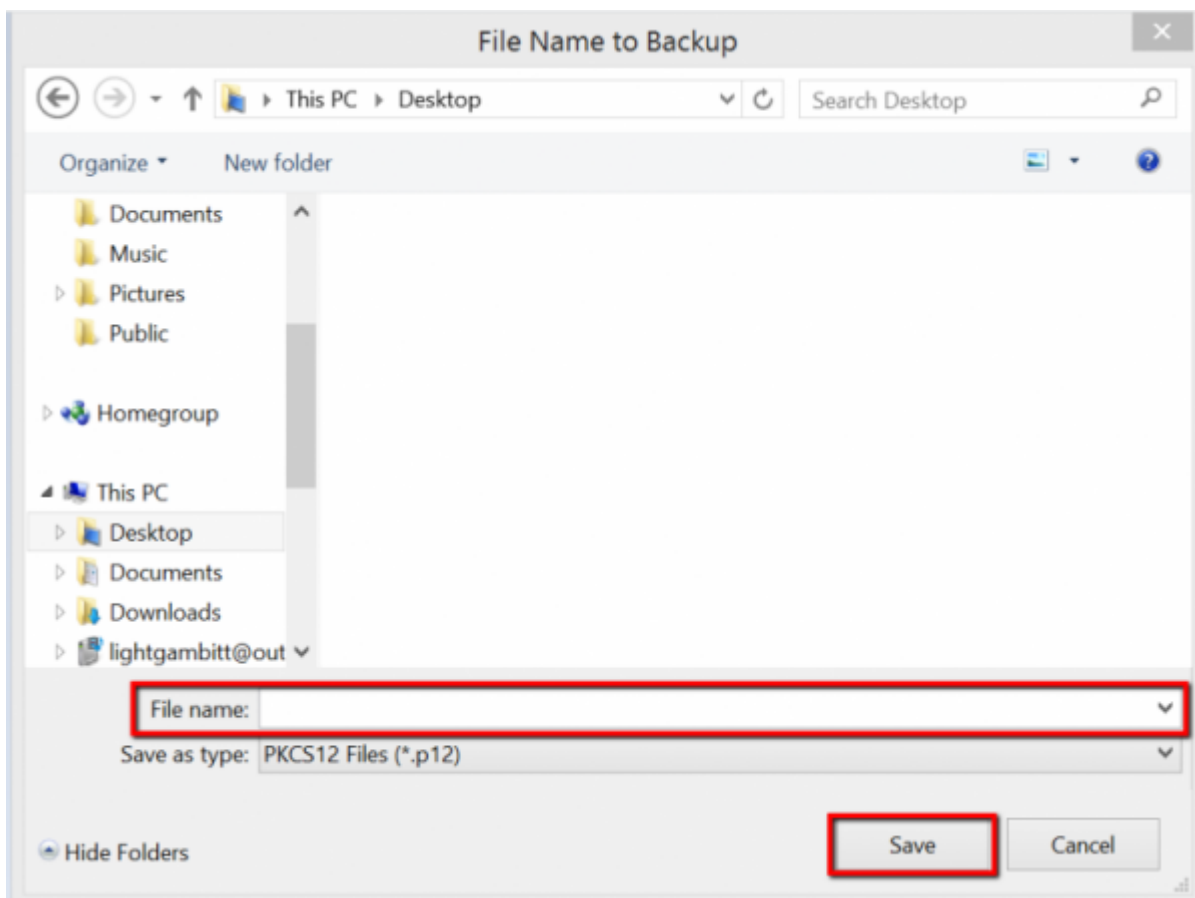

In the Certificate Manager click the **Your Certificates** tab

Select the Certificate you want to export and click **backup**

In the **File Name to Backup** window specify the location and name of your certificate .p12 file backup

In the **Choose a Certificate Backup Password** window specify a password for your certificate

In the **Alert** window click **OK** and you're done
