

Thunderbird Setup

Mail

Add a new account

Welcome to Thunderbird ×

Would you like a new email address?

In partnership with several providers, Thunderbird can offer you a new email account. Just fill in your first and last name, or any other words you'd like, in the fields above to get started.

 **gandi.net**

The search terms used are sent to Mozilla ([Privacy Policy](#)) and to 3rd party email providers gandi.net ([Privacy Policy](#), [Terms of Service](#)) to find available email addresses.

Click on *Skip this and use my existing email*

Mail Account Setup [X]

Your name: Your name, as shown to others

Email address:

Password:

Remember password

Fill in these spaces:

Description	What to fill in	Notes
Your Name	First and last name, e.g. John Doe	use ue instead of ü etc.
Email address	Your official University Email address, eg. John.Doe@uibk.ac.at	can be taken from your "Benutzerbewilligung"
Password	can be taken from your "Benutzerbewilligung"	

Press *continue*

Thunderbird is trying to find the right settings but it will not find them, so immediately click *manual config*

Mail Account Setup ✕

Your name: Your name, as shown to others

Email address:

Password:

Remember password

	Server hostname	Port	SSL	Authentication
Incoming:	IMAP ▼ <input type="text" value="138.232.65.244"/>	1143 ▼	SSL/TLS ▼	Normal password ▼
Outgoing:	SMTP <input type="text" value="138.232.65.244"/> ▼	1025 ▼	SSL/TLS ▼	Normal password ▼

Username: Incoming: Outgoing:

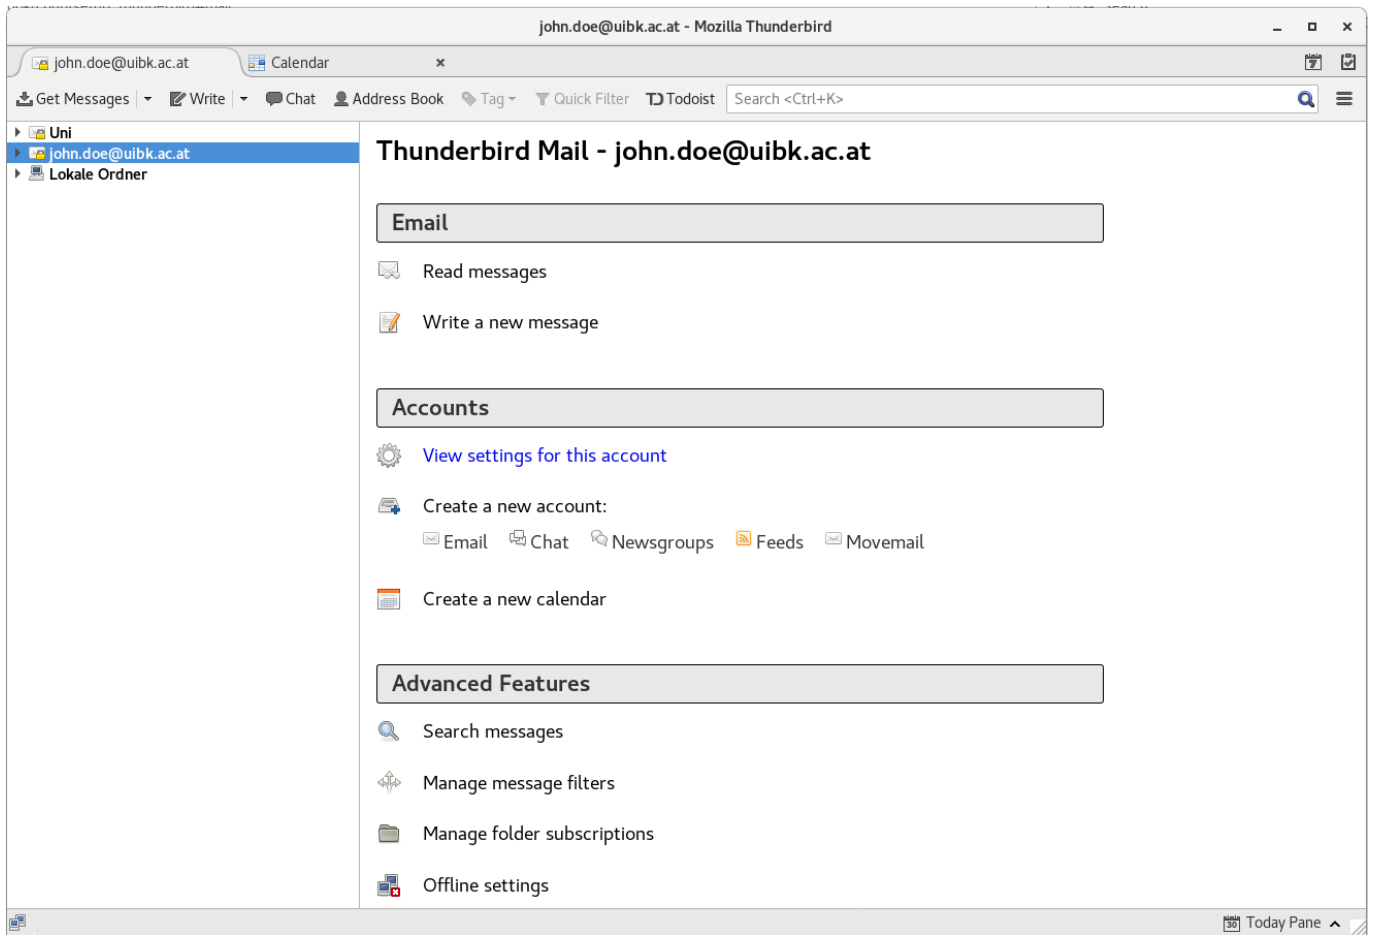

Once again fill these spaces:

Description	What to fill in	Notes
Username	Your c number	can be taken from your "Benutzerbewilligung"
Server hostname	138.232.65.244	incoming and outgoing are identical
Port (IMAP)	1143	
Port (SMTP)	1025	
SSL	SSL/TLS	
Authentication	Normal password	

Double check your entered infos, and click *Done*

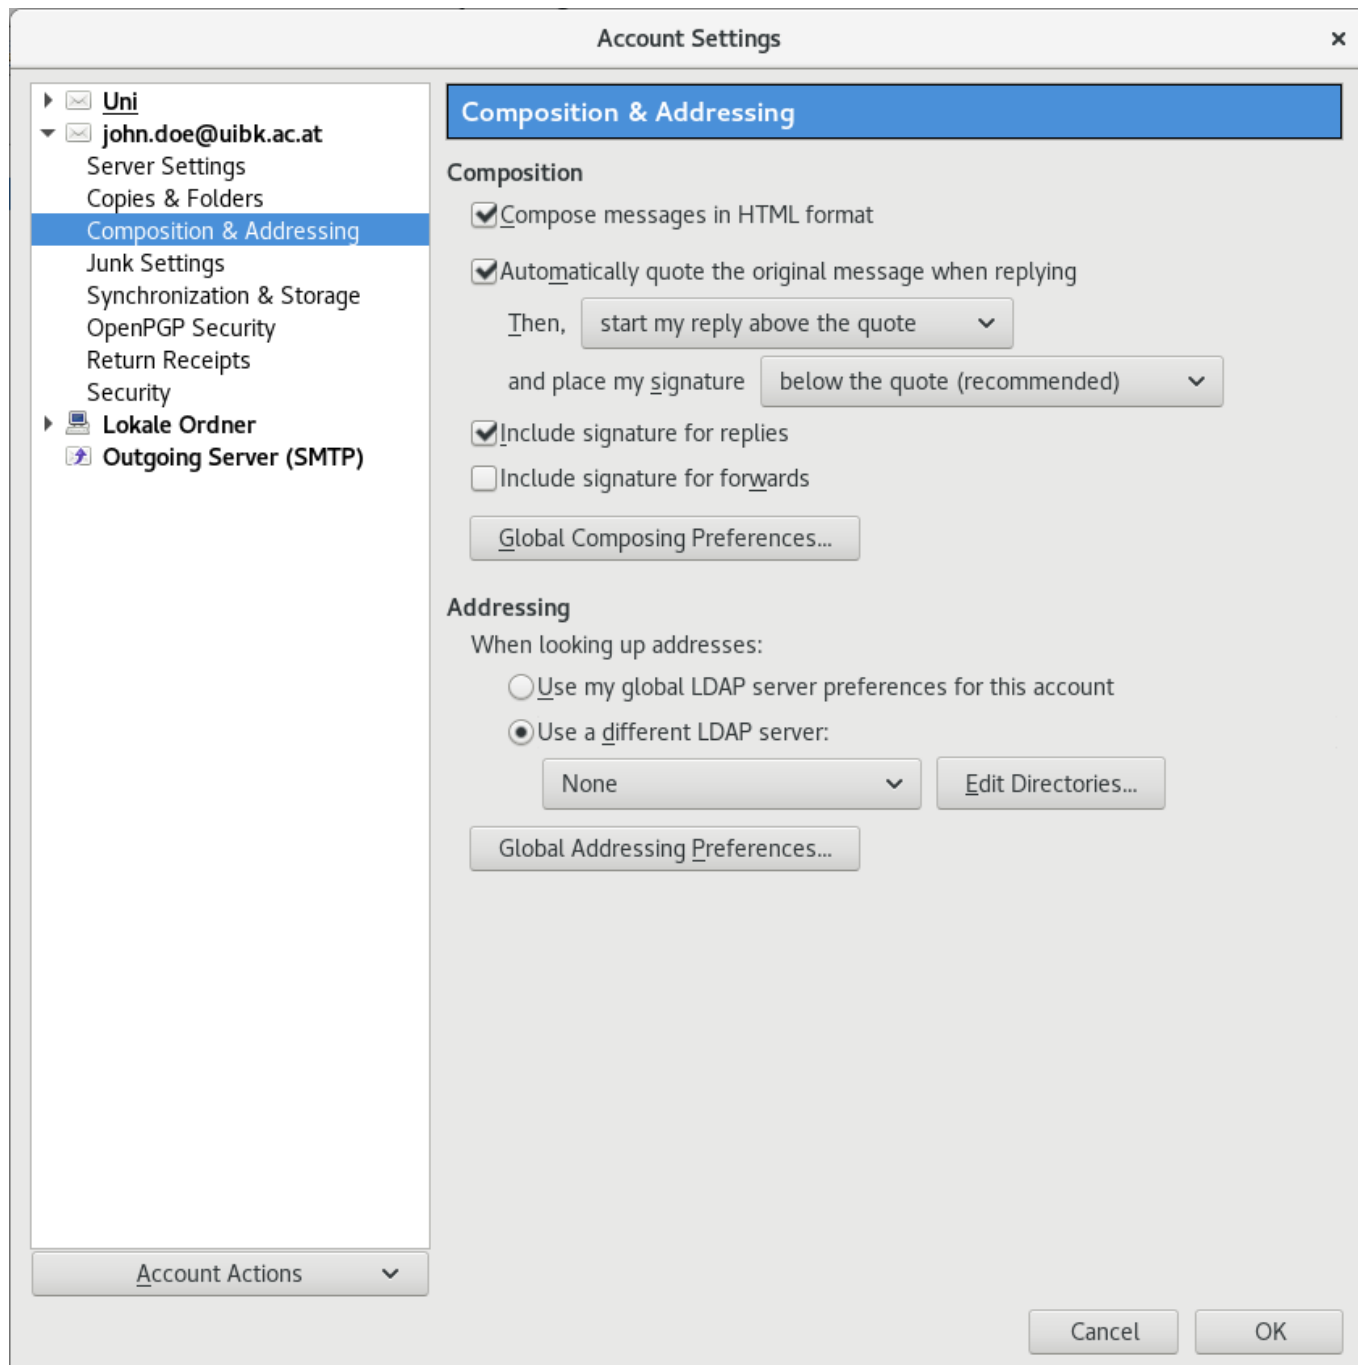

Your Mail Address is now configured.

LDAP

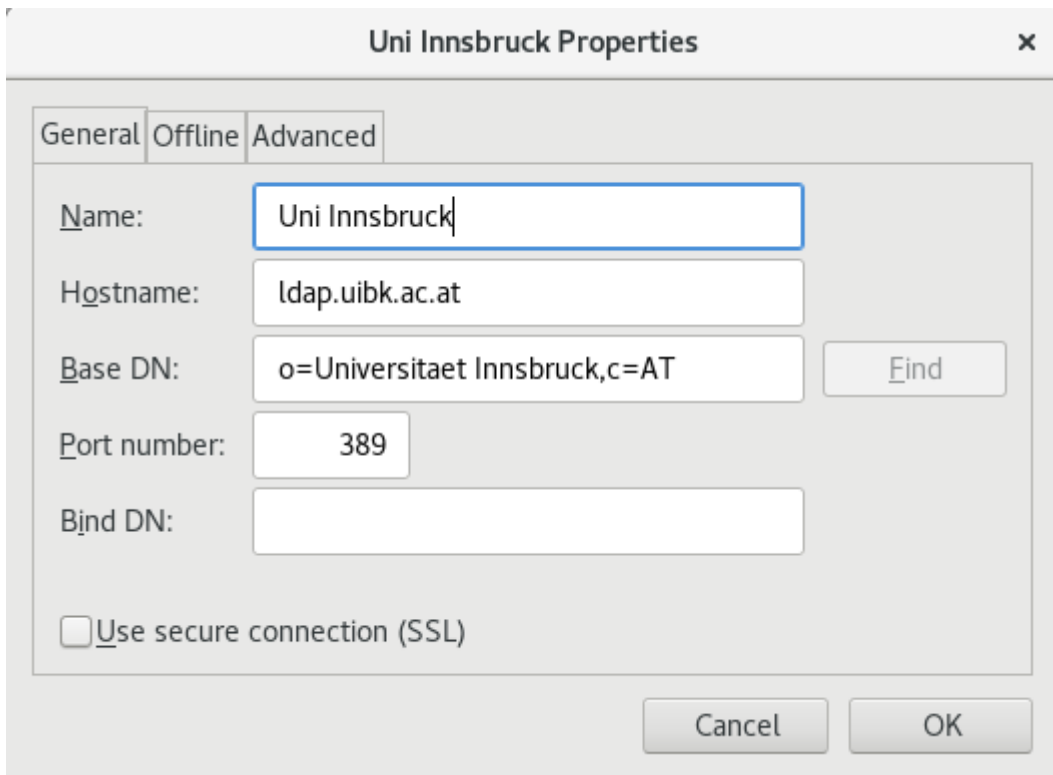

Email Signatur

Click on *View settings for this account*

Under *Composition & Addressing* click *Edit Directories...*

Fill the spaces:

Description	What to fill in	Notes
Name	Uni Innsbruck	
Hostname	ldap.uibk.ac.at	
Base DN	o=Universitaet Innsbruck,c=AT	
Port Number	389	

Email Signatur

To Add Text in your Signatur follow steps:

- 1- open your Thunderbird Prgoramm.
- 2- In navigation navbar click to **Edit** → **Accounts Settings** → **Signatur Text Input**

Example Signatur:

Reply-to Address: Recipients will reply to this other address

Organization:

Signature text: Use HTML (e.g., bold)

University of Innsbruck
Institute/Organisational Structure

Title First name Lastname
Field of activity (e.g. Secretary)

Street address, Room no. xxx, 6020 Innsbruck, Austria

mobile +43 676 8725 xxxxx
phone +43 512 507-xxxxx
fax +43 512 507-xxxxx
e-mail firstname.lastname@uibk.ac.at

Attach the signature from a file instead (text, HTML, or image):

Attach my vCard to messages

Choose... Edit Card...

Calendar

Switch to the Calendar tab, right-click below the calendars on the left and select *New Calendar...*

Create New Calendar [X]

Create a new calendar

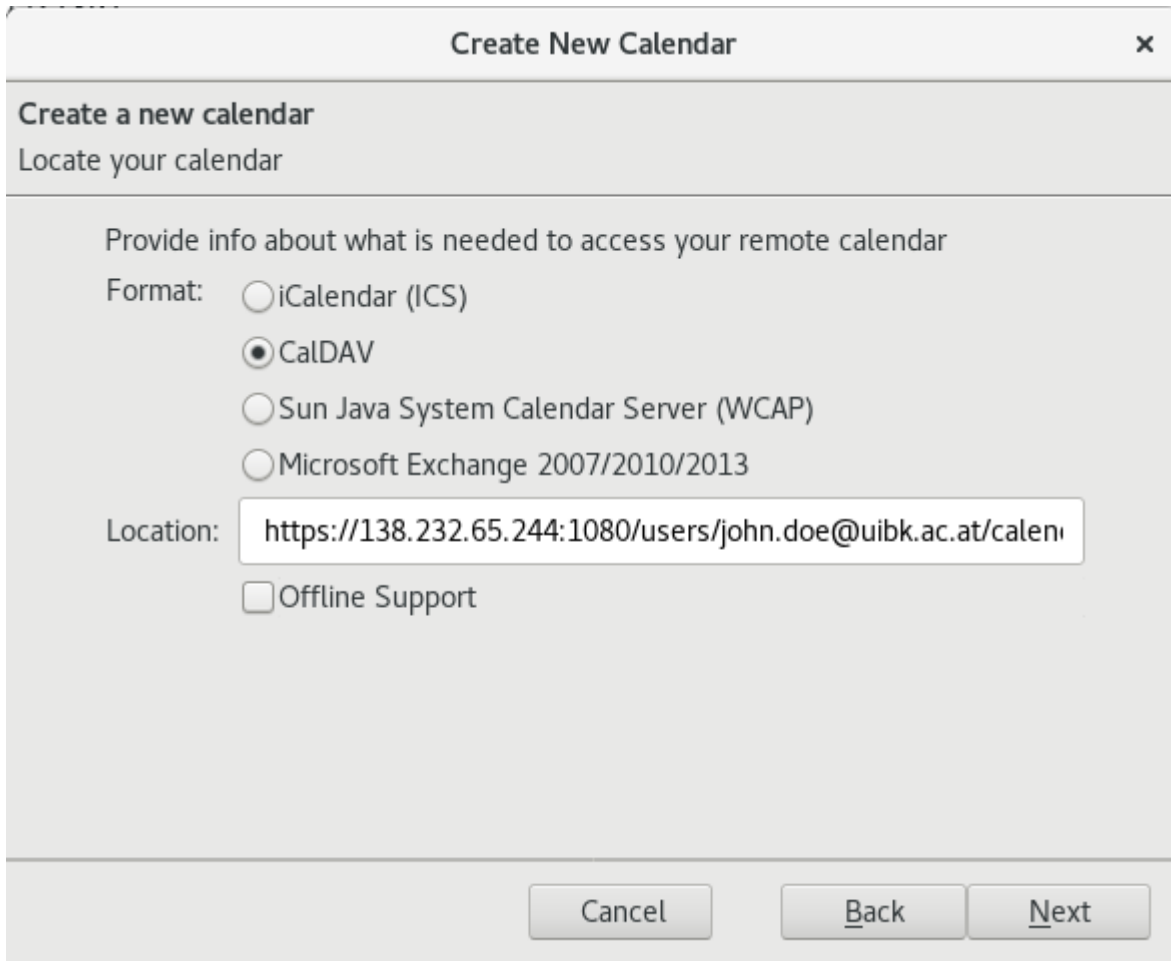

Locate your calendar

Your calendar can be stored on your computer or be stored on a server in order to access it remotely or share it with your friends or co-workers.

E-Mail: None v

CancelBackNext

Description	What to fill in	Notes
Name	Whatever you want to name your calendar	
Email	Which Email you want to link to this calendar	

Now click *Next* and finish the calendar setup.

S/MIME

Creating your Certificate

Visit the [DigiCert SSO Portal](#) and choose the University of Innsbruck

IDP Selection

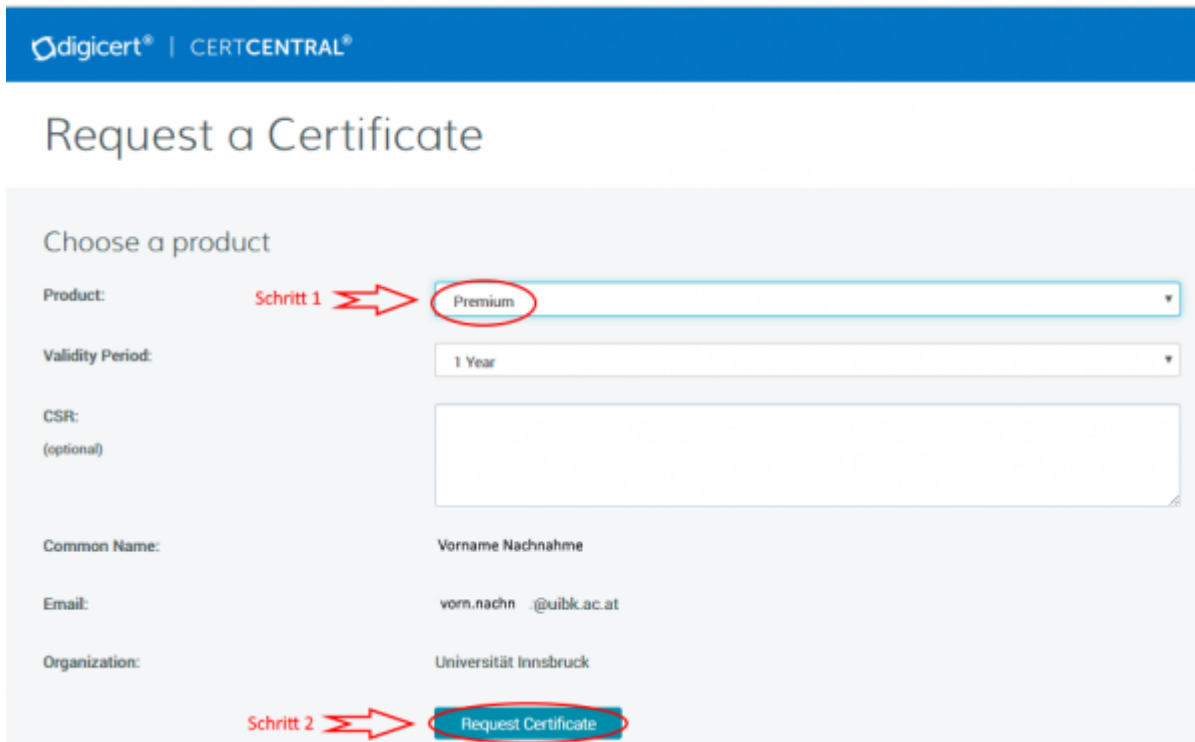

Please enter the Identity Provider to authenticate with:

University of Innsbruck

Next, login with your c-number

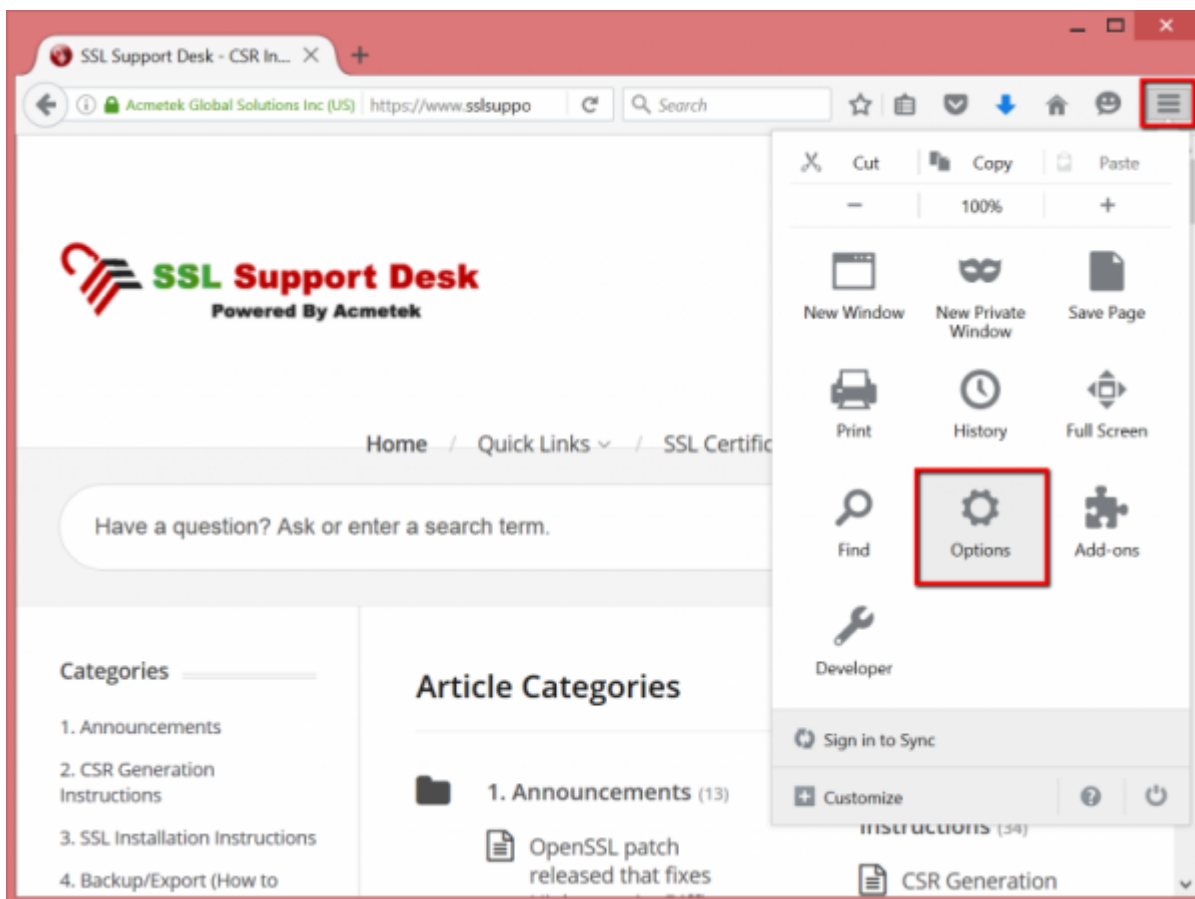

After that select **Premium** as Product, a Validity Period (1-3 Years) and click "Request Certificate"

Exporting the Certificate (Firefox)

In the upper right of your Firefox browser click 

Click **Options**

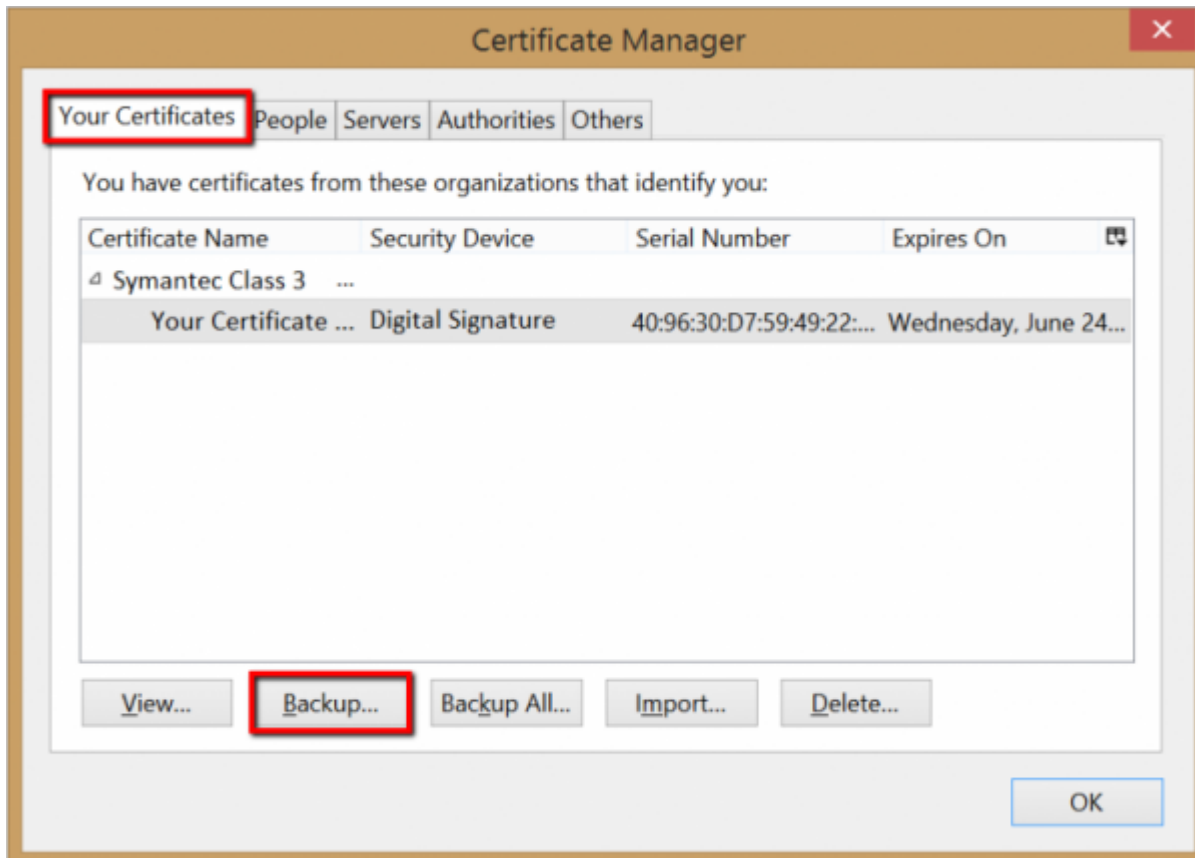

On the left panel click **Advanced**

Under Advanced click **Certificates > View Certificates**

In the Certificate Manager click the **Your Certificates** tab

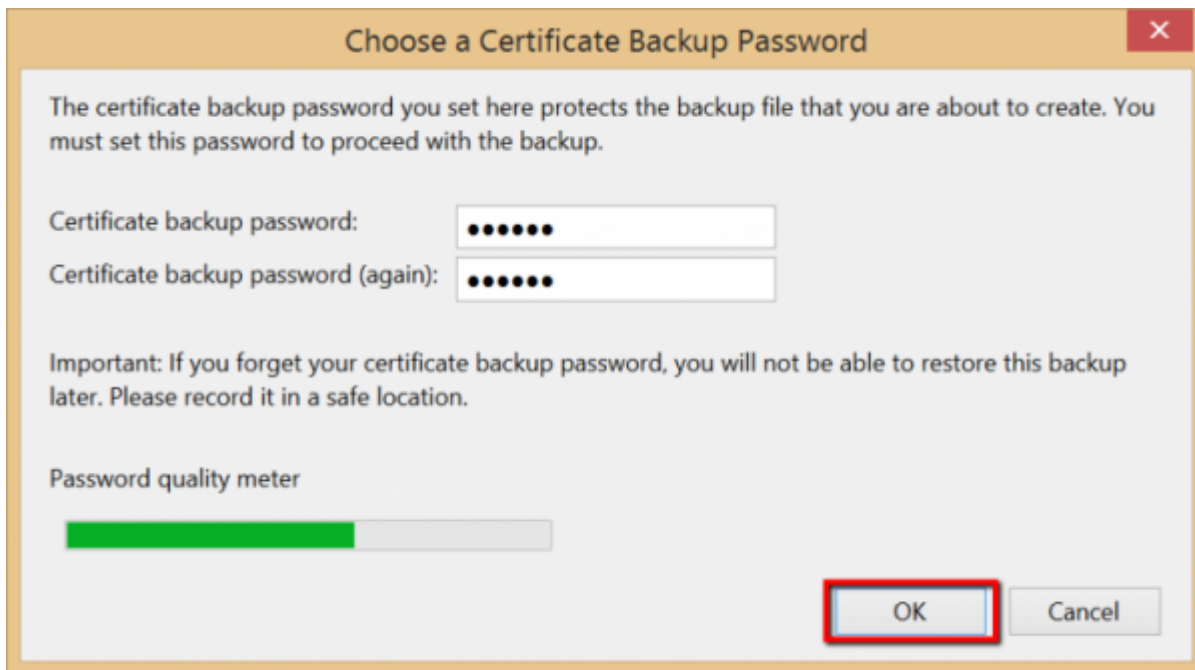

Select the Certificate you want to export and click **backup**

In the **File Name to Backup** window specify the location and name of your certificate .p12 file backup

In the **Choose a Certificate Backup Password** window specify a password for your certificate

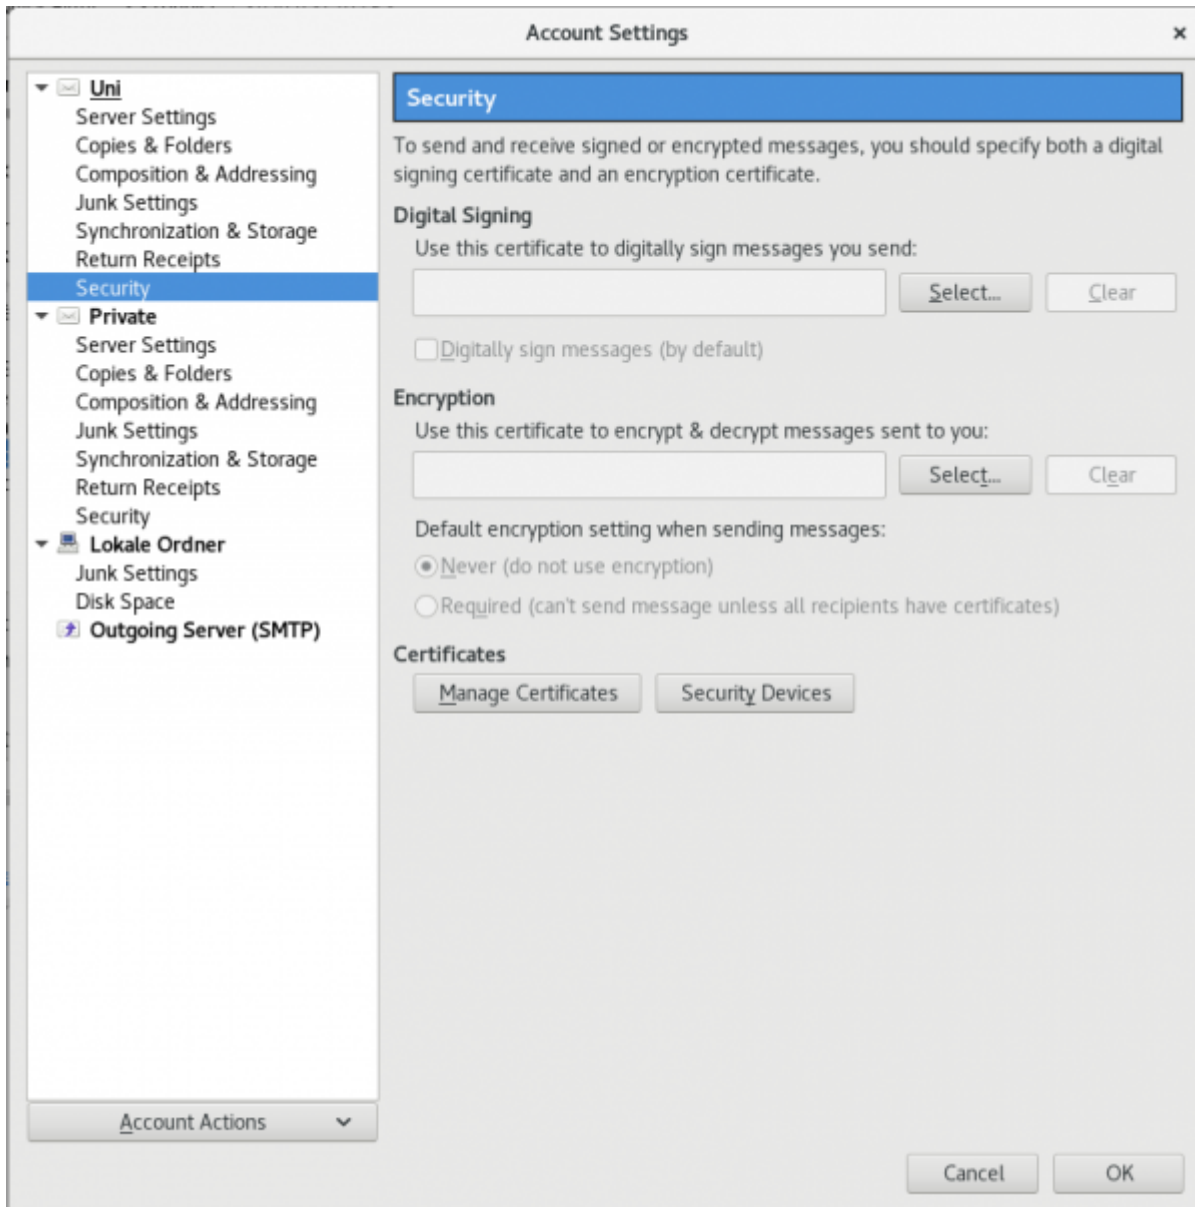

In the **Alert** window click **OK** and you're done

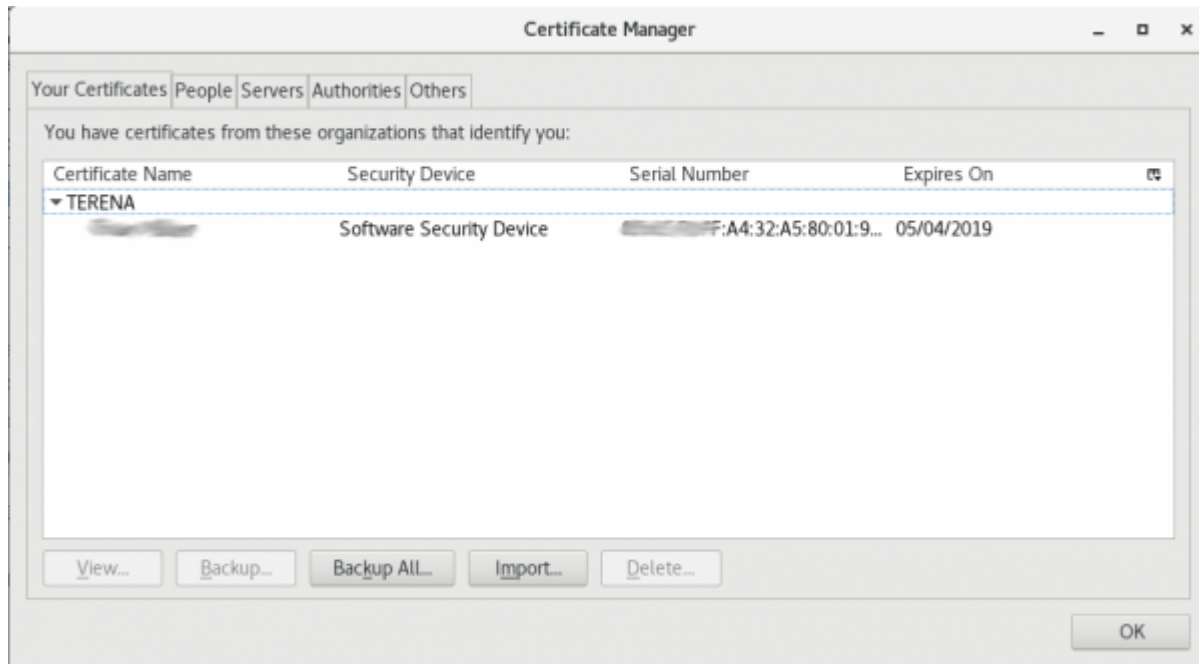

Using your Certificate with Thunderbird

Open the **Account Settings** window in Thunderbird, select **Security** (for your University Account) and click **Manage Certificates**

In the **Certificate Manager** window make sure you've selected the "Your Certificates" tab and click **Import**

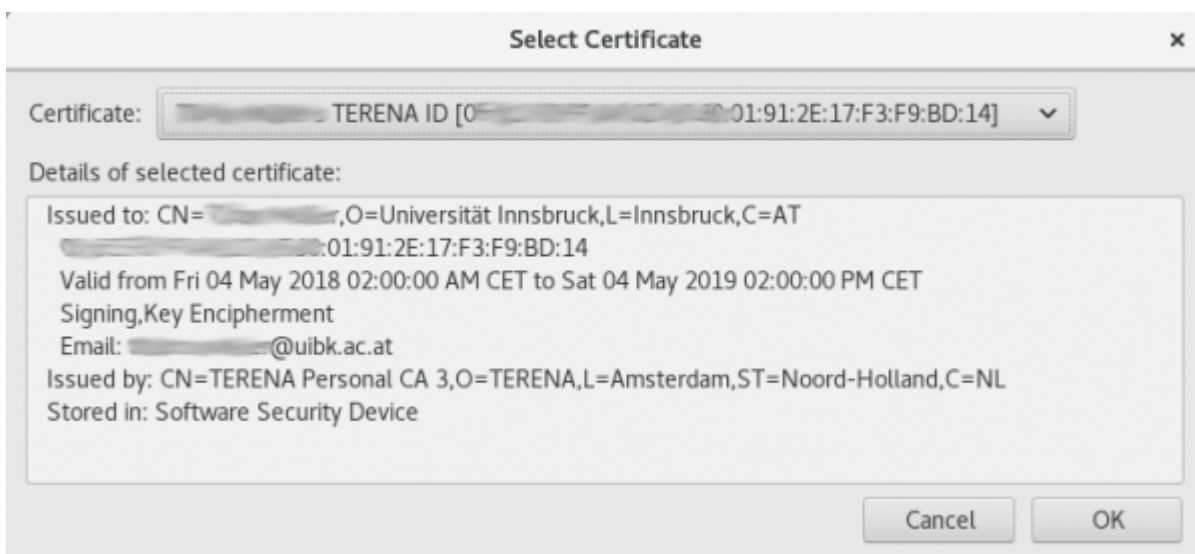

Select your previously exported .p12 file and enter your password

Back in the **Account Settings** window click **Select** next to the Digital Signing box

Select your imported Certificate

You're going to get asked if you want to use the same Certificate for Encryption, select **Yes**

And if you want to back in the **Account Settings** window you can set the check so that every mail

gets automatically signed
