

Install Windows 10 Enterprise (N) / Office Professional Plus from UIBK :

These installation ISOs require no separate activation keys, activation is done over an UIBK enterprise activation server (KMS).

Connect to the ZID UIBK software repository ("SWDL"), reachable over a SMB-Share:

- **Windows:**

via Explorer: "This PC" / "Map Network Drive..."

- Folder: \\swdl.uibk.ac.at/software
- User: UIBK\c703nnnn (your personal uibk c703... account)

- **Linux:**

- mount

```
//swdl.uibk.ac.at/software
```

- User: UIBK\c703nnnn (your personal c703... uibk account)

Navigate to "Windows/MS/Windows 10 Enterprise/20H2", find the appropriate ISO (english/german, 32/64 bit), copy them to a local drive and put the ISO on a bootable usb stick (or mount the iso in your virtualisation environment).

For installing Office, browse to \Windows\MS\Office\ and pick your appropriate version and install it over setup.exe

Ueberschrift

- blabla
- mount it:

```
//swdl.uibk.ac.at/software
```

Deutsche Version (english version will follow)
