

Install Windows 10 Enterprise (N) / Office Professional Plus from UIBK :

These installation ISOs require no separate activation keys, activation is done over an UIBK enterprise activation server (KMS).

Connect to the ZID UIBK software repository ("SWDL"), reachable over a SMB-Share:

- **Windows:**

via Explorer: "This PC" / "Map Network Drive..."

- Folder: \\swdl.uibk.ac.at/software
- User: UIBK\c703nnnn (your personal uibk c703... account)

- **Linux:**

- make sure you have `cifs-utils` installed

```
mkdir /mnt/swdl; mount -t cifs -o user=c703nnnn,domain=UIBK //swdl.uibk.ac.at/software /mnt/swdl
```

(replace c703nnnn with your personal c703... uibk account)

Windows 10 Enterprise (N)

When successfully connected, navigate to Windows / MS / Windows 10 Enterprise / 20H2, find the appropriate ISO (english/german, 32/64 bit), copy it to a local drive and create on a bootable usb stick from the contents of the ISO file (or mount the ISO in your virtualization environment).

MS Office Professional Plus

For installing Office, browse to Windows / MS / Office, pick your appropriate Office version and install it via `setup.exe`

Manuelle KMS-Aktivierung (german, english version will follow)
